

Acetamine Cockroach Gel

Active Ingredient: Acetamax 0.05%

Treatment Rates For All Uses

Apply a minimum of 2 spot of gel per m2, an increased number of spots of gel up to 5 per m2 may be required under conditions of heavy cockroach infection or where Oriental cockroaches and American Cockroaches predominate.

In some cases, a small thin layer of gel bait, 3mm wide and 5 cm long may be appropriate.

Several small applications of bait within an area are more effective than 1 or 2 applications of large quantities.

First Aid Measures

Eye contact: Rinse immediately with plenty of water, for at least 15 20 minutes. Immediate medical attention is required.

Inhalation: Move the victim to fresh air. Call a physician immediately.

Ingestion: If swallowed, seek medical advice immediately and show this container or label. DO NOT induce vomiting.

Skin contact: Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician.

Medical advice: there is no specific antidote available. Treat symptomatically
