

KEEP OUT OF REACH OF CHILDREN

ALPHAMETHRIN EC Professional insecticide to control crawling and flying insects, has a double action, which destroys harmful insects quickly and efficiently. The content of Tetramethrin has an instant effect and has the fastest knockdown effect of all known natural and synthetic pyrethroids. It is resistant to temperature changes, heat and sunlight, Cypermethrin is released slowly, which ensures the long residual effect of the preparation.

ALPHAMETHRIN EC Is a broad-spectrum insecticide against mosquitoes, ants, fleas, flies, wasps, bugs, cockroaches, mites, ticks, silverfish

Target Insects: Flies, mosquitoes, cockroaches, ants, bed bugs, fleas, spiders, silverfish - Larvae of flies and mosquitoes.
