Agri-Veta LTD  
Riebeckstraße 38 Leipzig PLZ 04317  
Deutschland,  
Germany

**Caution**

**DELMATRON 0.05 DP:** One of the strongest public health insecticides in the pyrethroidal group which control a wide range of insects.  
Active Ingredient: Deltamethrin 0.05% DP

#### **Advantages:**

- **DELMATRON 0.05 DP** is in the form of a fogging powder ready for use as an insecticide. This material is manufactured from the water-resistant group of pyrethroids.
- It contains the active ingredient deltamethrin, which works through contact and digestion.
- It is used to combat many crawling insects such as cockroaches, ants, fleas, silverfish and scorpions.
- It is used by fogging in places where public health pests are present and passed
- It has a distinctive and extended effectiveness for a long period of up to 3 months due to its resistance to humid conditions.
- It is used in homes, factories, restaurants, residential units, hotels and storage places.
- It acts on insects by contact and ingestion, either way.
- Easy to operate, applied internally and externally.
- It is characterized by direct killing and long-term effects.
- It does not cause itching, stains or odor.
- Easy to use, used indoors and outdoors

#### **USES AND APPLICATION RATE:**

Pests	Application Rate	Remarks
Ants	10-20 grams	Apply in the location of nests if there are no ant nests
Cockroaches, Scorpions	20-30 grams	where they located

# **PUBLIC HEALTH INSECTICIDE**

## **FOR PROFESSIONAL USE**

#### **Use Directions:**

- 1- Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.
- 2- Do not use or store near heat or open flame.
- 3- Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing before reuse.
- 4- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- 5- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- 6- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
- 7- This product is toxic to aquatic organisms, including fish and invertebrates.
