

## KEEP OUT OF REACH OF CHILDREN

**FIPROSUPER 2.5 EC** is highly active insecticide which will effectively flush flying and crawling insects out of their hiding places and kill through direct contact. It is the best termite control solution that provides protection to building structures with a combination of colony management effects. It has a distinctive chemical composition and is unique in its method of acting as a serial killer.

**FIPROSUPER 2.5 EC** has both contact and certain systemic effects. The active ingredient fipronil acts on the GABA A receptor in the central nervous system of the insect, where the pathway for chlorine ions is closed, leading to a neurological disorder that results in the death of the insect. Eliminating the role of GABA A in regulating nerve function distinguishes **FIPROSUPER** from the rest of the other pesticides used in Anti-earth.

**FIPROSUPER 2.5 EC** :For use against flying insects such as flies, mosquitoes and other small flying insects Also used against crawling insects such as ants, bedbugs, cockroaches, fleas, termites.

**Areas of Use:** Hotels, Kitchens, Food storage areas, Hospitals (excl. occupied wards), Military establishments, Poultry farms, Dairies and Livestock, Municipal buildings, Refuse tips, Warehouses and Raw material stores

**Mode of Application:** Can be used as a surface spray, crack, and crevice spray, for cold or hot fogging, and targeted applications

### Rate of use:

Application Method	Target Pests	Dilution rate	Application Rate
Residual spray	Cockroaches, bedbugs, ants, silverfish, fleas, spiders	1 LTR / 260 LTR of water	1 LTR of solution/ 200 m <sup>2</sup>
	Termites		4 LTR of solution/ 1 m <sup>2</sup>
ULV spray	Mosquitoes, flies, wasps, sandfly <sup>1</sup>	1 LTR / 100 LTR of water or diesel or kerosene	0.5 LTR of solution/ ha
Thermal fogging	Mosquitoes, flies, wasps, sandfly	1 LTR / 400 LTR of water or diesel or kerosene	2 LTR of solution/ ha

**Storage:** Store in the original tightly closed container in a cool, dry and ventilated place away from children, food, feedstuffs and water after handling. Remove contaminated clothing and water. Protect against sunlight for prolonged periods. Store in an authorized pesticide store.

**Disposal:** Dispose off by triple rinsing and crushing or perforating empty containers and dispose them in accordance with the National Regulations and Legislation on disposal. Do not re-use empty containers for any other purpose.

**Warranty:** The manufacturer guarantees the pesticide in its original containers under appropriate storage conditions for a period of 24 months from production date as a maximum, and the company does not bear responsibility for any damages resulting from misapplication or use.

# FIPROTTRONIC 2.5 EC

## INSECTICIDE

### Public Health Insecticide

#### EMULSIFIABLE CONCENTRATE

#### Composition:

Active ingredient: Fipronil..... 2.5% (w/v)  
Geraniol..... 0.0001(w/v)  
Inert Ingredients:..... 97.4999% (w/v)  
TOTAL..... 100% (w/v)

#### FOR PROFESSIONAL USE

**Net volume: 1 liter**

#### Country of Origin: Germany

Agri-Veta LTD

Germany

Caution

## Read the entire Directions for Safety Use

### Precautions:

Handle and open container with care.

Wear protective clothing. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate.

Take precautionary measures against static discharges.

Do not release into the environment. Do not allow to enter drains, sewers or watercourses. Do not eat, drink or smoke when using the product. Wash hands after handling.

Remove contaminated clothing. Wash contaminated clothing before reuse.

**Harmful:** danger of serious damage to health by prolonged exposure if swallowed.

### First aid:

**General information:** Remove affected person from source of contamination.

**CAUTION!** First aid personnel must be aware of own risk during rescue! Place unconscious person on the side in the recovery position and ensure breathing can take place.

**Inhalation** Move the exposed person to fresh air at once. Get medical attention. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. If breathing stops, provide artificial respiration.

**Ingestion** DO NOT INDUCE VOMITING! Rinse mouth thoroughly. Get medical attention immediately! If breathing stops, provide artificial respiration.

**Skin contact** Remove contaminated clothing immediately and wash skin with soap and water. Get medical attention promptly if symptoms occur after washing.

**Eye contact** Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyes wide apart. Get medical attention immediately. Continue to rinse.

**Antidote:** Treat symptomatically. If ingested, material may be aspirated into the lungs and cause chemical pneumonitis. Antidotes: Treat seizures with benzodiazepines.

### In case of fire

Activate fire systems and notify the competent authorities

Remove the source of ignition.

Contain the fire as much as possible and do not risk extinguishing the fire

After extinguishing, treat the leak.
