

# Thumper Plus Cockroach Gel

Active Ingredient: Abamectin 0.05% + Pyriproxyfen 0.50%

## Treatment Rates For All Uses

Apply a minimum of 2 spot of gel per m<sup>2</sup>, an increased number of spots of gel up to 5 per m<sup>2</sup> may be required under conditions of heavy cockroach infection or where Oriental cockroaches and American Cockroaches predominate.

In some cases, a small thin layer of gel bait, 3mm wide and 5 cm long may be appropriate.

Several small applications of bait within an area are more effective than 1 or 2 applications of large quantities.

## First Aid Measures

**Eye contact:** Rinse immediately with plenty of water, for at least 15-20 minutes. Immediate medical attention is required.

**Inhalation:** Move the victim to fresh air. Call a physician immediately.

**Ingestion:** If swallowed, seek medical advice immediately and show this container or label. DO NOT induce vomiting.

**Skin contact:** Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician.

**Medical advice:** There is no specific antidote available. Treat symptomatically.
